IN THIS BOOK YOU WILL FIND CONFIDENTIAL INFORMATION ON OUR 2026 MOTORSPORTS PRODUCT LINE.

WHILE THIS BOOK CONTAINS THE MAJORITY OF NEW PRODUCTS WITHIN THE LINE, ADDITIONAL ITEMS MAY BE ADDED AT A LATER DATE.

PRICING AS WELL AS FINAL PRODUCT COLORWAYS, MAY BE SUBJECT TO CHANGE. ANY CHANGES WILL BE PROVIDED TO YOU IN WRITING WITH AS MUCH ADVANCE NOTICE AS POSSIBLE.

PROVIDING O'NEAL WITH YOUR PRE-BOOK ALLOW YOU TO RECEIVE SPECIAL PRICING PROGRAMS. FURTHER, YOUR PRE-BOOK ORDER ASSURES YOU FULFILMENT WHEN THE NEW 2026 LINE IS RELEASED. WE THANK YOU FOR YOUR CONTINUED BUSINESS AND SUPPORT!

IN CASE OF ANY QUESTIONS, PLEASE DO NOT HESITATE TO CONTACT YOUR O'NEAL REPRESENTATIVE.

THANK YOU FOR CHOOSING:

**O'NEAL**

# Automatically calls for help when you're no longer able to do so.

O'NEAL Helmets are now equipped with QUIN's intelligent **safety technology**. This technology means that **vital help** is on the go, even if you can't call it. Your emergency contacts will be **automatically alerted**. The emergency centre receives the alert and sends help immediately.\* You only need the **QUIN device** and the app.

**EXPLORE NOW:**  
[www.oneal.eu/quin-system](http://www.oneal.eu/quin-system)

**O'NEAL QUIN SMART SENSOR**

# FEATURES OVERVIEW

## BREAK-AWAY SCREWS

Break-away-screws are specifically designed to break after an impact on the visor of the helmet. By breaking away forces to the head are reduced. It provides additional safety in case of a crash.

## EMERGENCY QUICK RELEASE SYSTEM

E.Q.R.S for helmet cheek pads allows for swift and effortless removal of the cheek pads during emergency situations, enabling prompt helmet removal without compromising the wearer's safety. This feature aids first responders in efficiently accessing the rider's head, providing necessary medical attention or facilitating the helmet removal process in a way that minimizes the risk of exacerbating any potential injuries.

## AIRFLAPS™

AIRFLAPSTM increases ventilation by lifting the Goggle off the face. Maximum airflow without sacrificing protection with simple installation with 3M double face fixation. They can be operated single handed during riding and is compatible with any MX Goggle. The distance between Goggle & face can be adjusted up to 10mm

## ROTATIONAL IMPACT SYSTEM

IPX® are strategically placed alongside the EPS of the helmet and designed to reduce head injuries caused by rotational- and low speed impacts during crashing.

## GOPRO® MOUNT

The GoPro® Mount allows you to attach all devices with a GoPro® adapter directly. The mount is screwed directly to the designated mount to ensure a stable attachment. It's flexibly adjustable to find the optimum recording angle for rides and centrally positioned.

## VENTILATION

Adjustable and closable ventilation channels for individual airflow.

## QUIN SMART SAFETY SENSOR INSTALLATION

Multifunctional Smart sensor for automatic emergency call, recording, transmitting accident and driving data. More information on page 4 / 5 or online: <https://www.oneal.eu/en/quin-system>

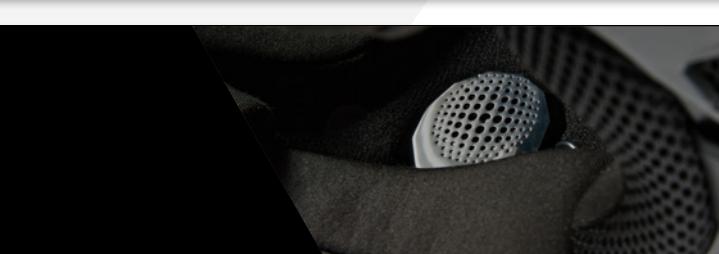

## HYDRATION HOSE GUIDE

Easy operating click in device to securely fix your hydration hose on your helmet.

## BLUETOOTH-READY

There are pre-formed cutouts for optional speakers in the ear area (Bluetooth device not included).

# FEATURES OVERVIEW

## LIMITED RUN

Please be informed that this product is only available while current stock lasts. Once the existing inventory is fully sold, it will no longer be possible to place additional orders.

### INFINITY COLLAR & CUFF DESIGN

Infinity collar and cuff design for ultimate comfort, performance and features a seamless, flexible construction that enhances comfort and fit.

### AIR MESH

Mesh panels for extra ventilation, comfort and designed to enhance breathability and airflow. Their advanced design promotes moisture management and temperature regulation.

### ZIPPED POCKETS

Hidden secure side back pocket in seam with zipper closure. Handy for stashing key, bank card, lift pass, etc

### STRETCHING MATERIALS

4-way-stretch for increased freedom-of-movement and comfort while riding

### 360-DEGREE-ADJUSTABLE BELT

360-degree adjustable belt. Even pressure around the entire waist for optimum fit and comfort.

### EXTENDED TAIL WITH SILICONE PRINTING

Silicone printing on the inside of waistband to help grip the jersey when tucked in and prevent it coming out when riding.

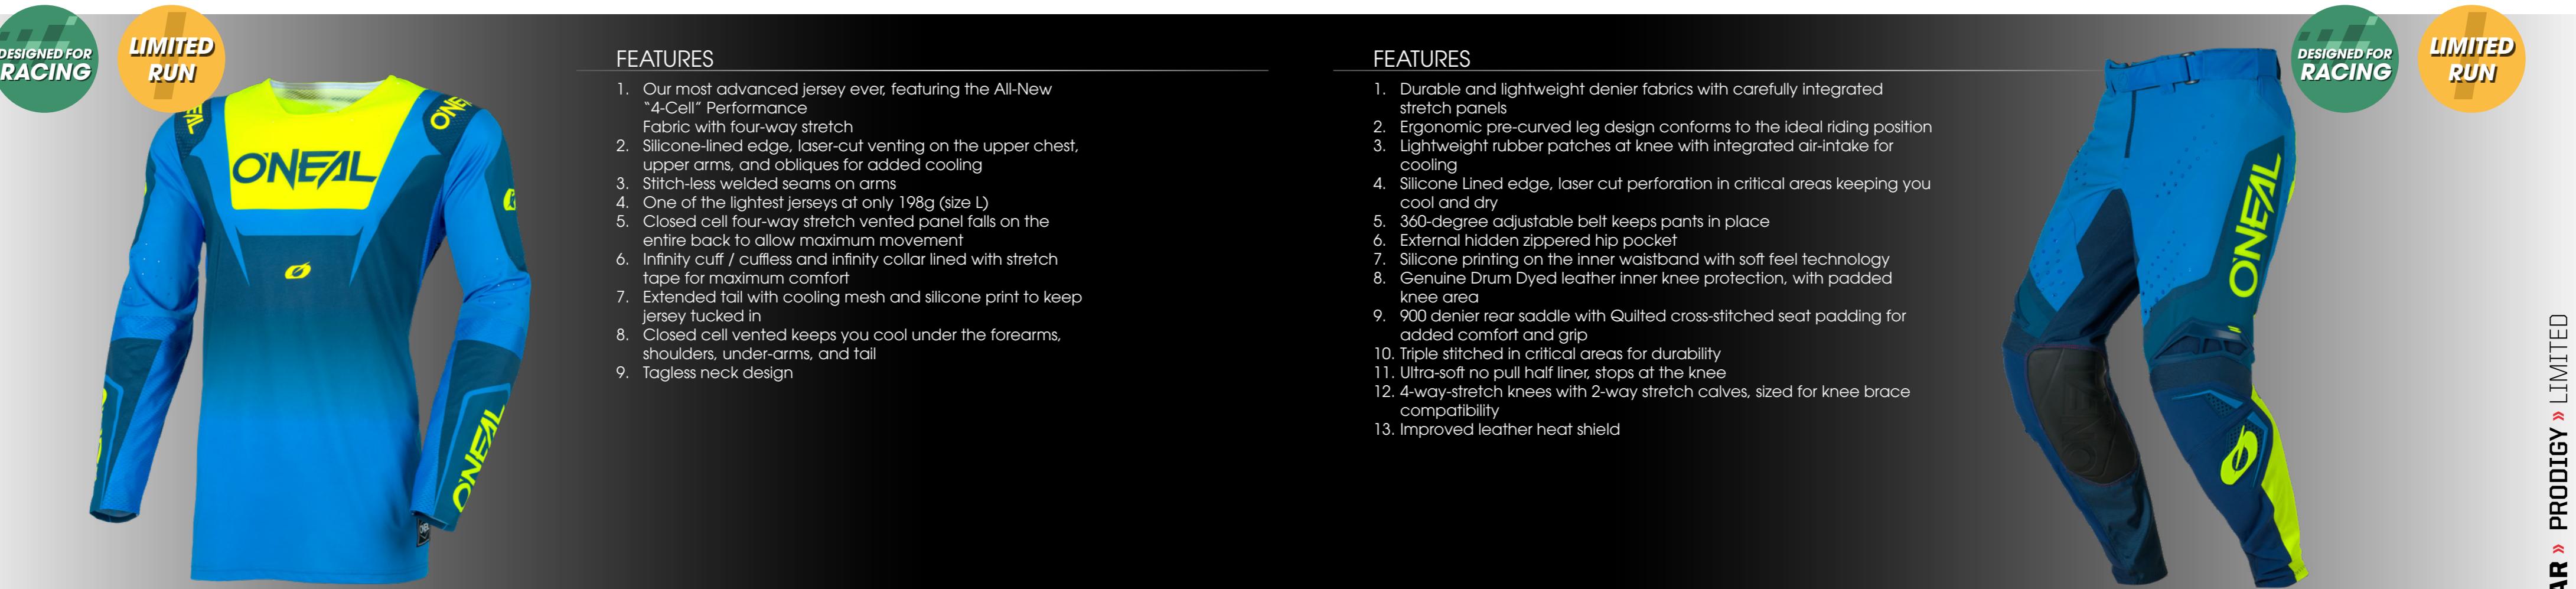

## FEATURES

1. Our most advanced jersey ever, featuring the All-New "4-Cell" Performance Fabric with four-way stretch
2. Silicone-lined edge, laser-cut venting on the upper chest, upper arms, and obliques for added cooling
3. Stitch-less welded seams on arms
4. One of the lightest jerseys at only 198g (size L)
5. Closed cell four-way stretch vented panel falls on the entire back to allow maximum movement
6. Infinity cuff / cuffless and infinity collar lined with stretch tape for maximum comfort
7. Extended tail with cooling mesh and silicone print to keep jersey tucked in
8. Closed cell vented keeps you cool under the forearms, shoulders, under-arms, and tail
9. Tagless neck design

# JERSEY

## FEATURES

1. Durable and lightweight denier fabrics with carefully integrated stretch panels
2. Ergonomic pre-curved leg design conforms to the ideal riding position
3. Lightweight rubber patches at knee with integrated air-intake for cooling
4. Silicone Lined edge, laser cut perforation in critical areas keeping you cool and dry
5. 360-degree adjustable belt keeps pants in place
6. External hidden zippered hip pocket
7. Silicone printing on the inner waistband with soft feel technology
8. Genuine Drum Dyed leather inner knee protection, with padded knee area
9. 900 denier rear saddle with Quilted cross-stitched seat padding for added comfort and grip
10. Triple stitched in critical areas for durability
11. Ultra-soft no pull half liner, stops at the knee
12. 4-way-stretch knees with 2-way stretch calves, sized for knee brace compatibility
13. Improved leather heat shield

# ELEMENT

## FEATURES:

1. Relaxed fit for increased comfort and flexibility, Set-In Straight Cut
2. Breathable, moisture-wicking material
3. Jersey weight 264g (size L)
4. Sewn-in elbow padding
5. Extended tail that keeps jersey tucked in
6. V-Neck collar
7. Tagless neck design

# JERSEY

## FEATURES:

1. Heavy duty but lightweight denier fabrics provide the perfect combination of comfort and protection while riding
2. Durable, wear-resistant panels in critical areas
3. Premium canvas heat shield on both knees
4. Stretch panels in key points on the front, back, and knees of pants for great freedom of movement
5. Elastic waist with an adjustable ratchet closure system for a secure and snug fit
6. Protective rubber patches for extra protection
7. Cuffed lower leg to prevent bunching in boot
8. Fully lined for added comfort

# FEATURES OVERVIEW

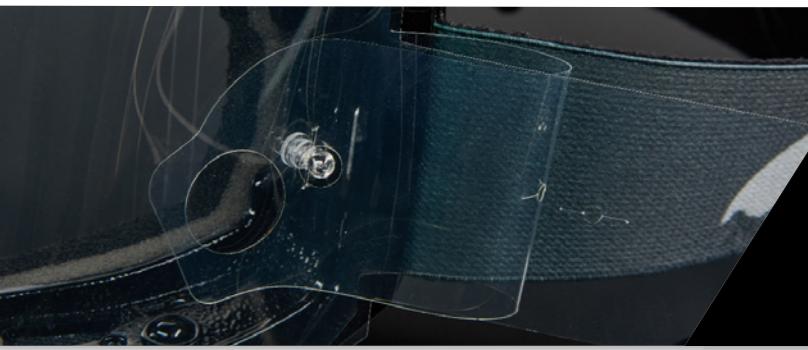

## LIMITED RUN

Please be informed that this product is only available while current stock lasts. Once the existing inventory is fully sold, it will no longer be possible to place additional orders.

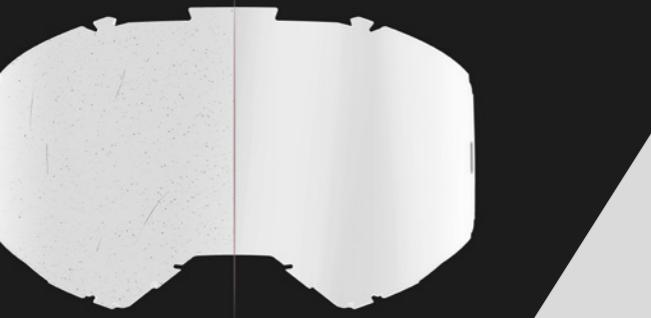

### MAGNETIC LENS

Magnetic goggle. Two-piece magnetic goggle with maximum field of vision and easy to operate lens change. Magnetic Lens with Smart Outrigger Locking mechanism for Lens Fixation - pat pending

### TEAR-OFF PINS

Tear-off pins are mounted on the outside of the lens to incorporate tear-off films, which are transparent, removable layers protect the main lens from dirt and debris, and can be quickly peeled off during use to restore clear vision.

### ANTI-FOG & ANTI-SCRATCH COATING

Anti-fog and anti-scratch coatings prevent fogging and protect goggles from scratches. The anti-fog coating ensures clear vision in humid conditions, while the anti-scratch coating increases the durability of the lenses.

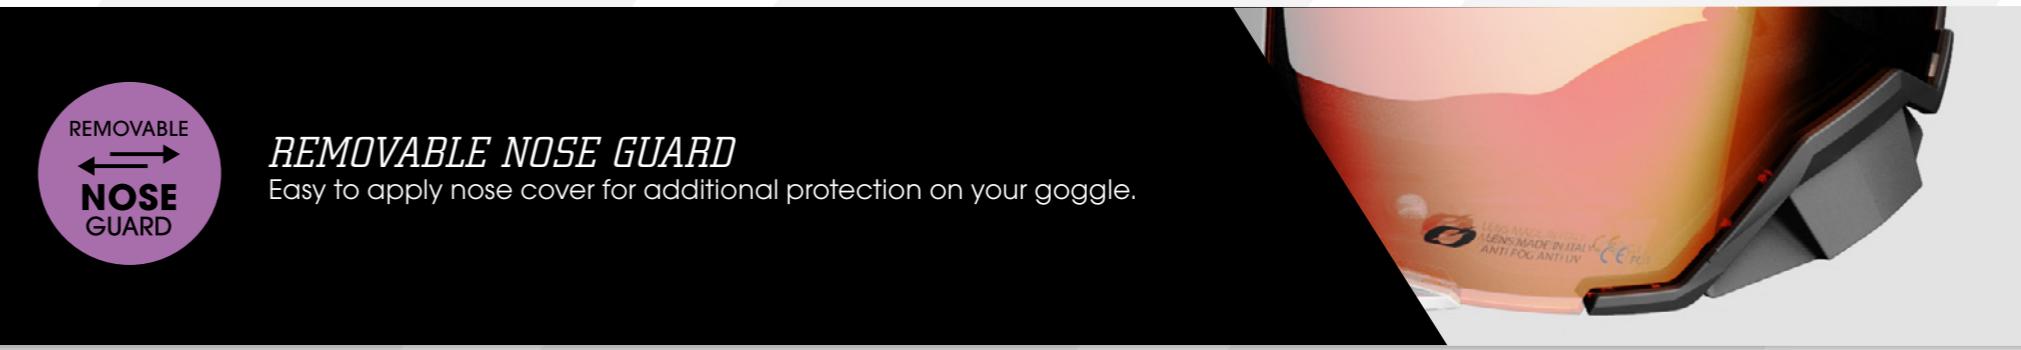

### NOSE EMBOSSED

Nose embossing refers to the raised or contoured design added to goggles around the nose area. This feature improves comfort and fit by providing better contact with the face, helping to create a secure seal and reduce pressure points.

### REMOVABLE NOSE GUARD

Easy to apply nose cover for additional protection on your goggle.

### CE STANDARD

All products meet the necessary standards for safety, performance, and quality. CE certification for PPE (Personal protective equipment) items involves compliance with specific directives and standards, such as the Personal Protective Equipment Regulation (EU) 2016/425. Depending on the category there are different standards and different protection levels.

# FEATURES OVERVIEW

## BREATHABLE FABRIC

Breathable fabrics are lightweight materials designed to enhance airflow and moisture management. Their advanced technology ensures comfort by keeping the wearer cool and dry, making them ideal for various activities and climates.

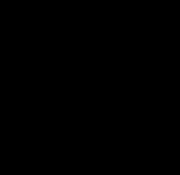

## SLIP ON ENTRY

Slip On Entry gloves feature a lightweight design that allows for easy on and off without a ratchet mechanism. This advanced construction ensures a comfortable fit and quick access, making them convenient for various tasks.

## SEAMLESS CUFF

Seamless cuffs are designed for a comfortable fit without bulky seams, enhancing flexibility and reducing irritation. Their advanced construction provides a sleek look while ensuring optimal performance and ease of movement.

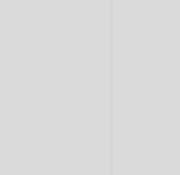

## TPR PATCHES

Additional rubber applications on outer glove shell. TPR Patches are lightweight, high-performance components made from thermoplastic rubber, providing excellent durability and flexibility. They are abrasion-resistant, waterproof, and offer a secure grip.

## VENTILATION HOLES

Ventilation holes are strategically placed openings designed to enhance airflow and breathability. Their advanced design improves comfort by promoting moisture management and temperature regulation during various activities.

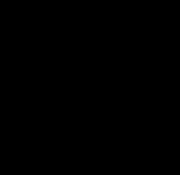

## NANOFRONT PALM MATERIAL

Thin high grip palm material offers unrestricted feel and control and maximum comfort. Nanofront Palm is a lightweight, high-performance material made from ultra-fine fibers, providing superior grip and touch sensitivity. It's durable, moisture-wicking, and resistant to wear. Its advanced technology ensures a comfortable fit while maintaining performance in various conditions.

## ROLLED OVER & SILICON FINGERTIPS

Laser cut venting to promote airflow and cooling along with perspiration moisture escape for increased comfort while riding.

## DS NASH PALM MATERIAL

DS Nash Palm is a durable, lightweight material made from palm fibers. It offers excellent grip, moisture resistance, and eco-friendly properties, making it a popular choice for high-performance gloves and equipment.

## CARBON FIBRE KNUCKLE PROTECTION

Carbon Fibre Knuckle Protection offers lightweight, high-strength defense for enhanced safety during impact. Its advanced design ensures flexibility while maintaining durability, making it ideal for protective gear in demanding environments.

## TPR PATCHES

## LAST SEASON

Please be informed that this product is only available while current stock lasts. Once the existing inventory is fully sold, it will no longer be possible to place additional orders.

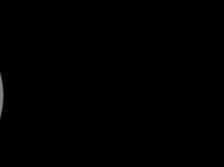

### NYLON INSERT

Stiffness provided by lightweight nylon lasting board with added fiberglass. It offers maximum strength while maintaining flex-abilities.

### PP INSERT & STEEL SHANK

Integrated steel shank for ultimate safety and stability.

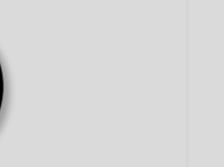

### AIR MESH LINING

Air mesh fabrics. Increased comfort, enhanced ventilation and moisture-wicking properties by using mesh fabrics.

### REMOVABLE PU FOOTBED

Ergonomically pre-shaped and anti-sweat treated soft PU footbed, designed for a superior comfort and additional damping.

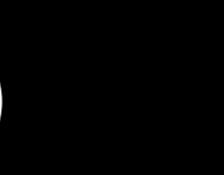

### REINFORCED OUTSIDE TOE AREA

Enhanced protection with additional plastic toe reinforcements.

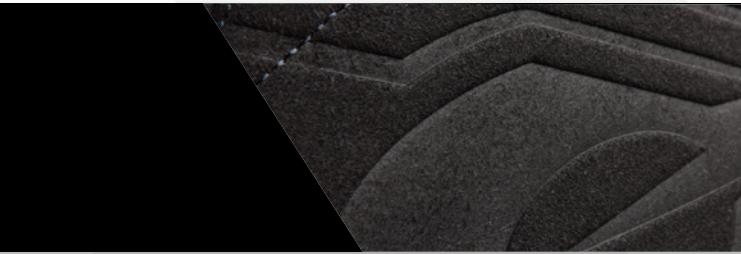

### REMOVABLE EVA FOOTBED

Lightweight and removable EVA footbed.

### TEXTURED GRIP SHIFT PLATE

A textured forefoot area provide excellent shifting grip without slipping.

IMPROVED STABILITY

SELF-ALIGNING METAL BUCKLE

INCREASED PROTECTION

## CONSTRUCTION, SAFETY & FEATURES:

1. Dual compound rubber sole for perfect grip, durability and comfort
2. Perfect balanced stiffness provided by lightweight nylon lasting board with added fiberglass. It offers maximum strength while maintaining flex-abilities
3. Integrated steel shank for ultimate safety and stability
4. Ergonomically pre-shaped and anti-sweat treated soft PU footbed, designed for a superior comfort and additional damping
5. Increased protection and stability by multiple inner and outer re-inforcement parts around the foot, heel and calf. Strong side stability
6. Plastic parts are made of specifically formulated polymer for improved stability, maximum grip and abrasion resistance
7. High grip rubber flap to secure a individual tight closure
8. Heat resistant inner burn guard made by technical suede microfiber
9. Soft technical gaiter keeps water and dirt out of the boot level of protection
10. Lightweight upper construction combined with a co-injected strong and durable protective shin plate
11. Secure fit with the self-aligning metal buckle closure system with four adjustable and exchangeable buckles
12. Texture surface for maximum shifting grip
13. Anatomically shaped heel cup and molded inner ankle padding offers superb comfort and additional protection
14. Increased protection with additional toe re-inforcement
15. Soft & comfortable inner lining with 3D mesh assures a superb comfort & ventilation
16. The RMX boot is certified with European standard EN13634-2017 with the maximum level of protection

# PROTECTION RANGE

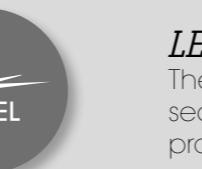

FEATURES OVERVIEW ON THE NEXT PAGE 75

# FEATURES OVERVIEW

## LEVEL II

The protector pads meet the EN 1621 Level II standard, the highest level of impact protection available. This certification ensures that the pads provide superior impact absorption and safety in accordance with rigorous industry benchmarks.

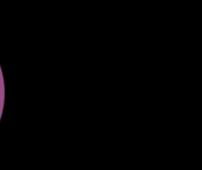

## LEVEL I

The protector pads are certified to meet the EN 1621 Level I standard, which is the second-highest level of impact protection. This certification guarantees that the pads provide excellent impact absorption and adhere to rigorous safety benchmarks.

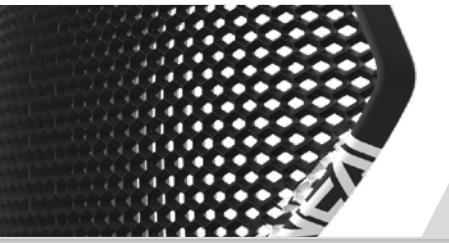

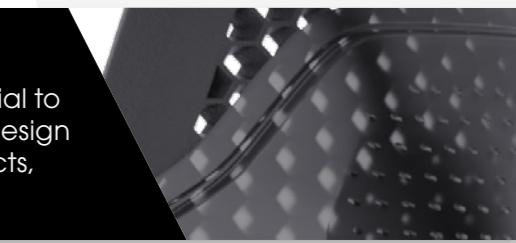

## OLEFINE BASED FOAM

Molded 3D olefin-based foams are a greener solution than PU foams, offering riders lightweight protection. These foams can be worn directly on the skin.

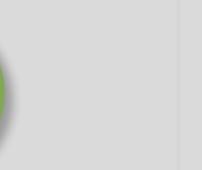

## NON NEWTONIAN

The pad incorporates non-Newtonian dilatants, which enable the protective material to stiffen upon impact while remaining soft when not under stress. This smart material design allows for pads that are flexible and adapt their microstructure in response to impacts, providing dynamic comfort and enhanced protection.

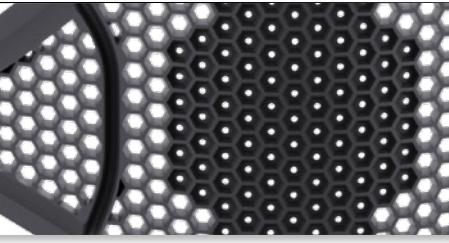

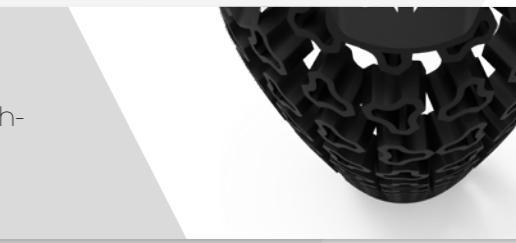

## HIGH ELASTICITY

The garment features high elasticity, enabling a perfect fit that is super stretchable to improve comfort. This adaptability ensures full freedom of movement without sacrificing support or durability.

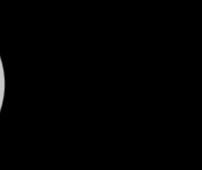

## IMPACT TPE GEL

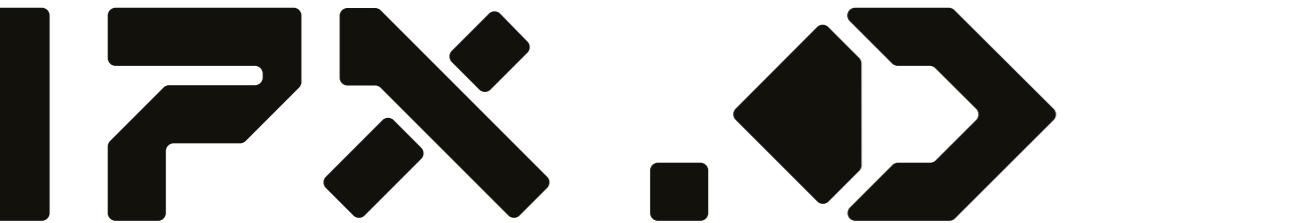

TPE shock-absorbing materials can be recycled and offer premium, slim protection without compromising safety, as proven by our laboratory testing.

## ULTRATHIN

Ultrathin protectors are designed to maximize flexibility and elasticity, allowing the protective pads to conform seamlessly to the body's movements.

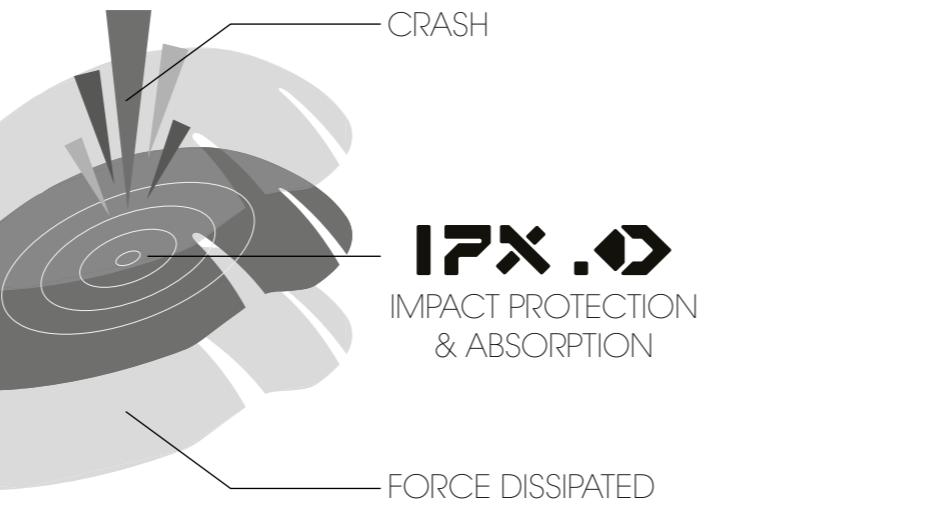

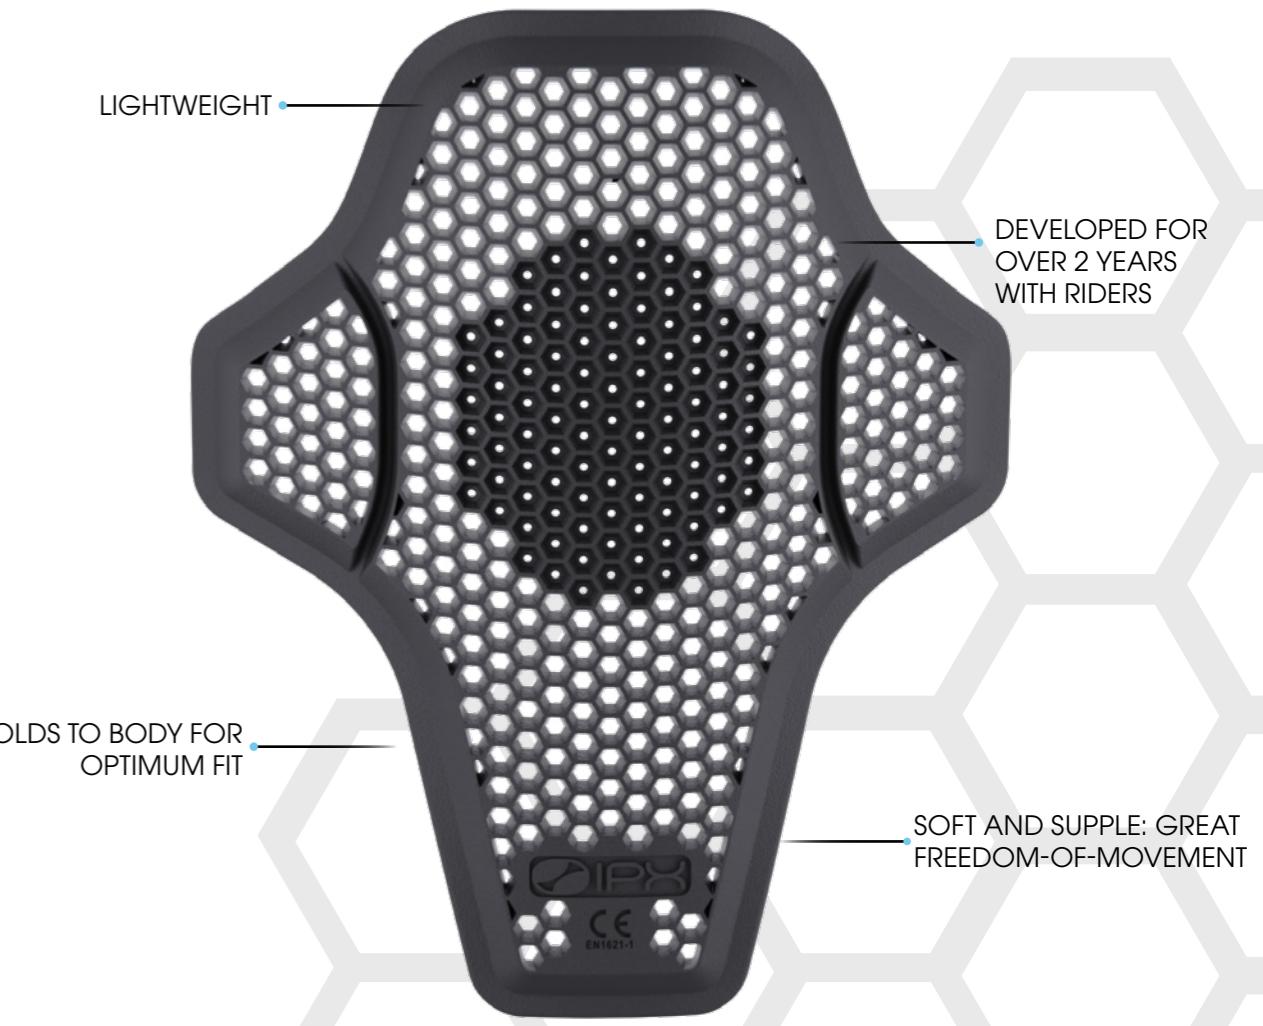

Intelligent Protection (IPX) works with the rider, constantly adapting to both body and surrounding temperatures to provide the ultimate protection when you need it most. Whilst riding IPX® becomes soft and supple, molding to the rider's body, providing 100% coverage of the area being protected and allowing the rider to manoeuvre with full freedom of movement.

## THE NEXT LEVEL OF IMPACT PROTECTION

In the event of a crash the IPX® impact foam instantly hardens on impact, providing protection against injury and minimizing the risk of permanent damage. IPX® then returns to its soft and supple pre-crash state and can be crashed repeatedly without compromising the structure and effectiveness of the foam.

Developed over a 2 year period, working with leading materials specialists and top DH and MX riders, this new impact foam technology offers unsurpassed levels of protection whilst maintaining freedom of movement, comfort and dexterity when riding.

Exceeding CE EN1621-3 standards for motorcycle protection.

Independent testing was conducted by Ricotest, together with DolomitiCert, the leading laboratory in Europe, who are responsible for testing many of the leading brands of protection on the market.

# FEATURES OVERVIEW

## LIMITED RUN

Please be informed that this product is only available while current stock lasts. Once the existing inventory is fully sold, it will no longer be possible to place additional orders.

### EMERGENCY QUICK RELEASE SYSTEM

E.Q.R.S. for helmet cheek pads allows for swift and effortless removal of the cheek pads during emergency situations, enabling prompt helmet removal without compromising the wearer's safety. This feature aids first responders in efficiently accessing the rider's head, providing necessary medical attention or facilitating the helmet removal process in a way that minimizes the risk of exacerbating any potential injuries.

### PINLOCK® FOG FREE SYSTEM

The Pinlock 30 creates a double shield system through a silicone seal between the visor and the Pinlock insert lens, forming a double-lens solution that prevents fogging.

### INTEGRATED SUN VISOR

Additional internal visor underneath the main visor ensures perfect visibility in bright and sunny conditions.

### QUIN SMART SAFETY SENSOR INSTALLATION

Multifunctional Smart sensor for automatic emergency call, recording, transmitting accident and driving data.  
More information on page 4 / 5 or online: <https://www.oneal.eu/en/quin-system>

### MICROLOCK CLOSURE

Microlock is an easy to operate ratchet chin strap closure with precise adjustment and secure fit.

### BLUETOOTH-READY

There are pre-formed cutouts for optional speakers in the ear area (Bluetooth device not included).
